

# Your Security & Savings Tool

With our system, each vehicle is assigned a card and each driver is assigned a unique identification number – one can't be used without the other. Drivers enter the current odometer reading of the vehicle at the time of purchase along with the identification number. Each month, you will receive this comprehensive Vehicle Analysis Report that gives you the ultimate control in fleet fueling.

Plus, you'll save money by cutting down on administrative expenses. Eliminate sorting through cash receipts and credit card slips. You get all this convenience, control and savings for a one-time setup fee of \$40.00 per account and only \$2.00 per card, per month – with no annual renewal fees.

**Security** - You know who buys what, where and when.

**Control** - Reduce costs by managing fuel types.

**Exceptions** - Trouble spots are flagged, helping to prevent abuse.

**Online Account Access**  
View, print and save reports in PDF format. With just a few mouse clicks you can add or delete drivers and vehicles. Eliminate the burden of writing checks with online payment.

**Vehicle Performance** - Both cost per mile and miles per gallon are calculated so you can track vehicle performance at a glance.

**Convenience** - Fuel & non-fuel purchases are tracked on one report

**Cost Savings** - Administrative time is reduced and fiscal reporting is easy with month-to-date and year-to-date reporting.
